

SNC[®]

AC-130J/MC-130J

Innovating at the Speed of Special Operations

Because Special Operations Forces (SOF) must be ready before the emergency happens, they rely on Sierra Nevada Corporation's (SNC) innovation, speed and performance for their C-130 programs. SNC has extensive C-130 design, integration, test, certification and modification capabilities – driven by SOF's schedule and capability demands.

ISR, Aviation, and Security (IAS)

Elite Capabilities for a Versatile Airframe

SNC specializes in bringing new capabilities to the proven C-130 aircraft. Our innovative avionics and mission upgrades enhance C-130 operations, increasing capabilities to satisfy the ever-changing battlefield threats and requirements. From flight deck upgrades to mission system integrations, SNC increases the C-130 aircraft's effectiveness.

Contractor Logistics Support (CLS)

Our Precision Strike Package (PSP) CLS team is the only PSP sustainment team in the industry. CLS provides the rapid ability to sustain all fielded systems and the flexibility to maintain emerging gunship force multipliers. This team provides hands-on worldwide support to multiple U.S. Air Force AC-130 gunships. Strengthened by depth and experience, the CLS team provides on-call support, bolstering dynamic weapons systems capabilities.

SNC PSP CLS Capabilities and Experience

- Life-cycle sustainment
- Weapons system maintenance
- Munitions systems maintenance
- Day-to-day mission systems maintenance and troubleshooting
- Full-service supply and logistics management
- Team of professionals with backgrounds in: aviation maintenance, information technology, quality assurance and supply chain management

Additional C-130 Experience

- AC-130 gunship mission system design and integration
- AC-130 side heads-up display integration
- Combat system operator design and integration
- MC-130J airborne mission networking design
- AC/MC-130J radio frequency countermeasures
- KC-130 Harvest Hercules Airborne Weapons Kit (HAWK)+ mission system design and integration
- Wing station hard point design and certification
