Sierra Nevada Corporation Receives ‘Big 25’ Award from C⁴ISR Journal

Sparks, NV - 30 September 2009 – Sierra Nevada Corporation’s President, Eren Ozmen is pleased to announce that SNC has received a Big 25 Award from the C⁴ISR Journal in the Innovation category (<http://www.c4isrjournal.com/story.php?F=4236305>). The Innovation category includes winners determined by C⁴ISR that make the biggest difference in the world of intelligence in the areas of “technical breakthroughs that could pay off soon, if they are not already doing so”. SNC received this award in recognition of our Gorgon Stare technology that is part of the ISR surge ordered by U.S. Defense Secretary Robert Gates in 2008. Gorgon Stare is a surveillance system named for the mythical Greek beings whose gaze could turn enemies to stone.

About Sierra Nevada Corporation

Sierra Nevada Corporation (SNC) is known for its rapid, innovative, and agile technology solutions in electronics, aerospace, avionics, space, propulsion, micro-satellite, aircraft and communications systems for both the private and public sectors. Founded in 1963, SNC’s seven unique business areas employs approximately 2000 people in 35 different locations in 20 states – all of whom are dedicated to providing leading-edge solutions to SNC’s dynamic customer base.

Over its 46 year history, SNC has remained focused on providing its customers the very best in diversified technologies to meet their needs and has a strong and proven track record of success. SNC has grown into one of the Top Woman-Owned Federal Contractors in the United States while maintaining its reputation for innovation and agility. The company continues to focus its growth on the commercial sector through internal advancements and outside acquisitions, including the emerging markets of telemedicine, nanotechnology, energy and net-centric operations.
